

6-7 YEARS | WEEK 24

Science - Biology Concepts

1. Name the plant

2. Bird watching - Bird study

3. Bird watching - Observation book

4. Food chain - Draw a food chain

5. Birds - South Africa

6. Earth - Planet report

7. Wildlife - Australia

8. Blue crane - South Africa

9. Wildlife - South Africa

10. Steppe Eagle - Egypt

11. Koala from Australia - Maze

12. Adaptations - Migration

13. Hibernation - Animals

14. Adaptations - Reasons

15. Hibernation - Craft

16. Migration - Draw it

17. Food chain - Meaning

18. Food chain - Identify a food chain

19. Food chain - Fix the chain

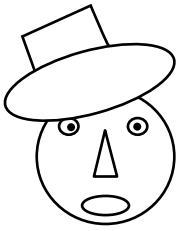

20. Food chain - Complete it

Name the plant

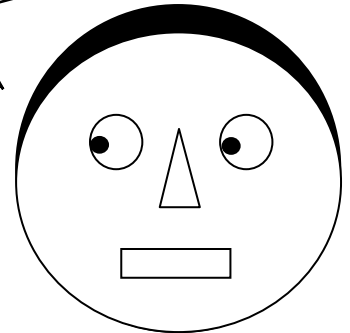

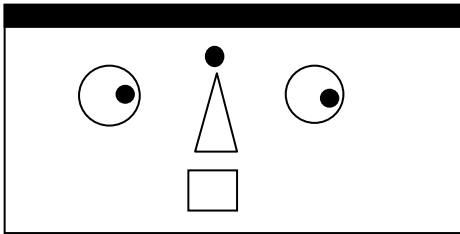

Now Sally has said the name of a big plant. He wants Kartar, Sam Sally and Bholu to write the names of other big plants in their notebooks. Mini has to find out who has written the name of a small plant. Help her by putting a cross (X) mark the name of this person.

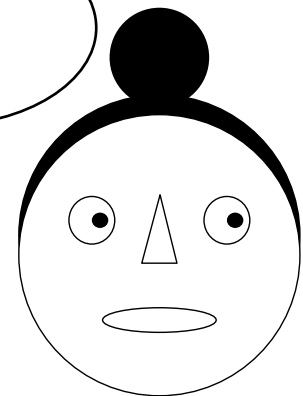

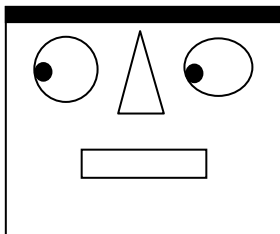

peepal

banyan

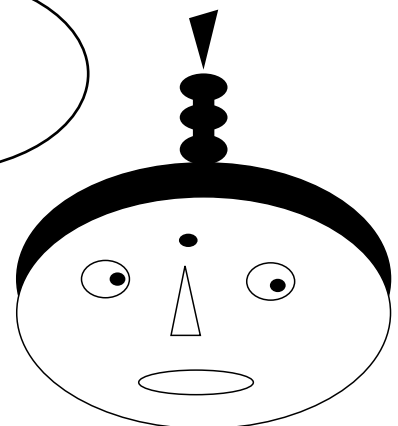

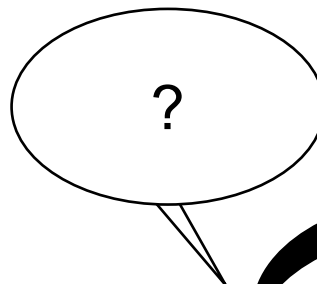

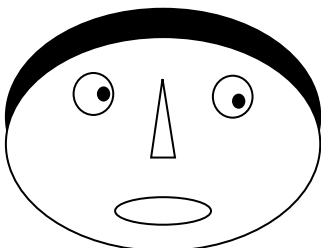

mango

rose

coconut

?

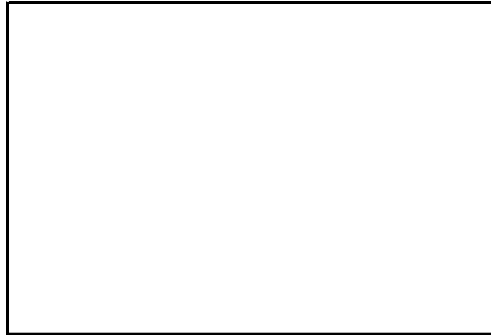

Bird watching: Bird study

Do you watch birds? Find out the details about your favourite bird and record it in the below space.

My favourite bird

Picture of the bird:

My observations

Colour:

Beak shape:

Wing shape:

Food habits:

Have you seen its nest?

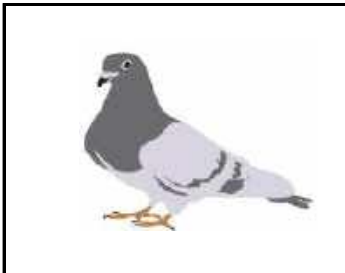

Did you hear its voice?

Was the bird alone?

Bird watching: Observation book

Go for a 20 minutes nature walk and observe the birds around you. Keep a record of these birds. Which bird did you see the most? Identify the bird given in the picture below, write the name and number of times you have seen it during the walk.

Bird	Number of times seen
