20. Singapore - Attractions

Australia: National Identities

Let's learn about the national animal of Australia. Read the following paragraph and fill in the blanks below.

The Red Kangaroo is the national animal of Australia. It is the largest of all kangaroos. It has long pointed ears and a square shaped nose. Females are smaller than males. It has two forelimbs with small claws, two muscular hind-limbs, which are used for jumping and a strong tail which is often used to create a tripod when standing upright. Males grow up to a head-and-body length of 1.3 – 1.6 m with a tail that adds a further 1.2 m. Females are considerably smaller, with a head-and-body length of 85–105 cm and tail length of 65–85 cm.

- 1 _____ is the national animal of Australia.
- 2 It has _____ forelimbs and _____ hindlimbs.
- 3 Head and body length of a male is _____.

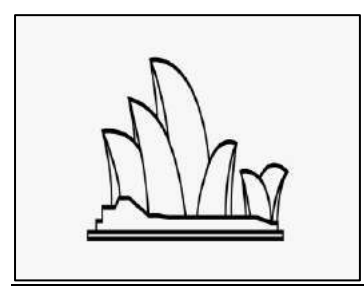

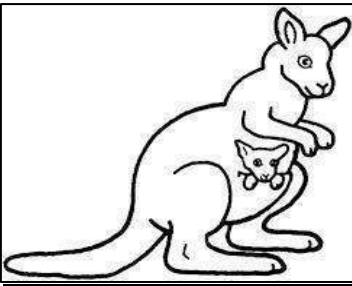

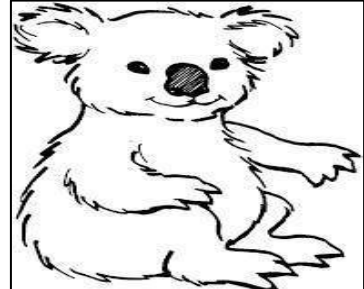

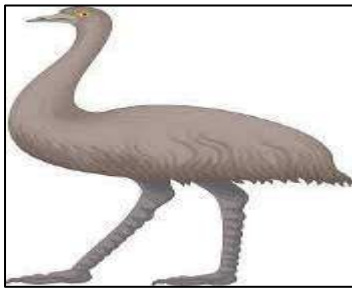

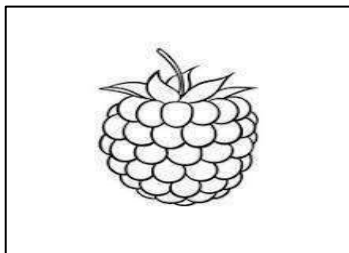

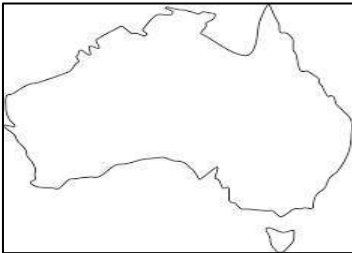

Help the mother kangaroo reach her joey.

Australia: National Identities

Identify the given images with the help of keywords.

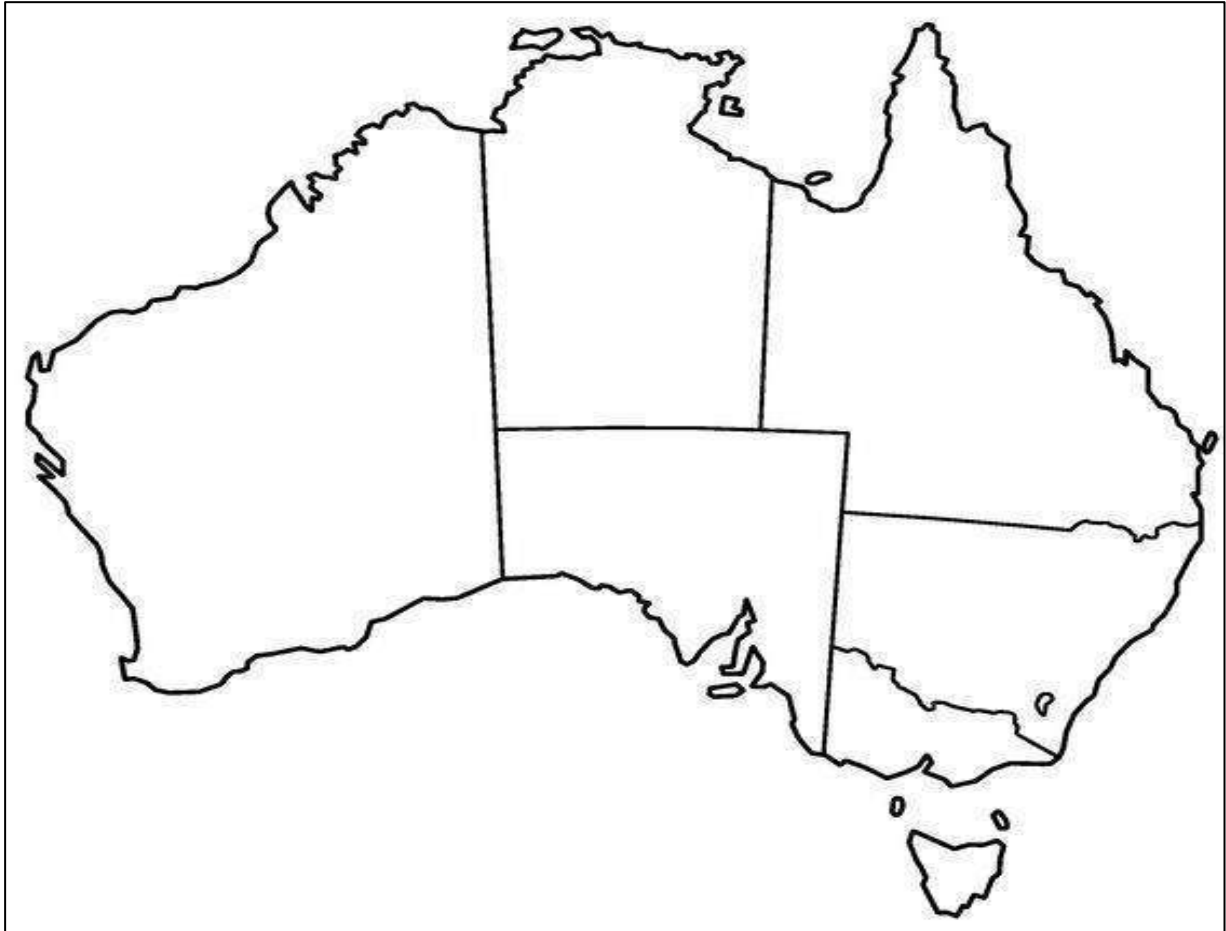

Boomerang	Emu	Flag	Kangaroo
Koala	Opera house	Black berry	Australia
Didgeridoo			

Australia: Geography

Label the map of Australia and write few things you have learned about Australia.
