

11-12 YEARS | WEEK 12

Science-Biology Body

1. Human Body

2. Bones

3. Organs

4. Body Systems

5. Let's Eat Now

6. Word search

7. Fill in the table- Body parts

8. Fill in the blanks

9. Correct or incorrect- Food

10. Gardening: Can I compost this?

11. Gardening: Know your tools

12. Gardening: Young Botanist Quiz

13. Gardening: Planting seeds

14. Gardening: Planning your garden

15. Label- Rain water harvesting

16. Biology - Body movements

17. Biology - Digestive system

18. Water and phenomenon's

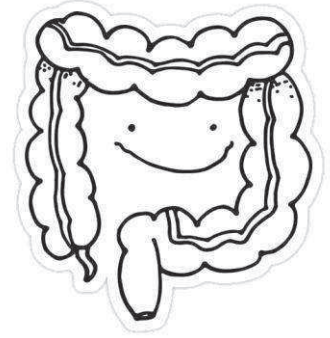

19. Fill in the blanks

20. Fill in the blanks

Human Body

Did you know that the human nose can detect about 1 trillion smells? And The foot is one of the most ticklish parts of the body? You don't have to verify tickling fact now, we have an interesting exercise for you.

Can you finding 8 body parts that are hidden in the word gym?

Some hints:

- Which of our organs are protected by the rib cage?
- Frame of bones supporting a human
- moves Our bones
- I am still thinking about the answer

Answers

1. Blood
2. Heart
3. Lungs
4. Muscles
5. Brain
6. Intestine
7. Mouth
8. Skeleton

Bones

Did you know? More than half your bones are in our hands and feet. We have 206 bones in total, and 106 Trusted Source of them are in our hands and feet.

Different animals have a different structure of bone formation and are classified accordingly as invertebrate and vertebrates.

Can you find the hidden Invertebrates and vertebrates in word gym?

Answers

Vertebrates: Bat, Shark, Sea Horse, whale, dolphin
Invertebrates: Cockroach, Snail, Earthworm, Starfish, Squid

Organs

Did you know? Stomach rumbling can happen at any time, not just when you are hungry.

Borborygmi, or stomach rumblings, are the result of peristalsis in the stomach and small intestines — that is, they are due to normal digestion as food, fluid and gases pass through your gastrointestinal tract. When the tract is empty, however, borborygmi are louder because there is nothing in there to muffle the sound.

In the word cloud, there are two organs from each of the category. Can you find them all and add it to the right group?

I	G	W	A	H	Z	S	G	N	U	L	A
F	Z	G	L	S	M	B	F	Z	L	B	P

Circulatory

- 1) _____
- 2) _____

Respiratory

- 1) _____
- 2) _____

Excretory

- 1) _____
- 2) _____

Digestive

- 1) _____
- 2) _____

Reproductive

- 1) _____
- 2) _____

Answer

CIRCULATORY
heart, vessels
RESPIRATORY
nose, lungs
EXCRETORY
kidneys, bladder
DIGESTIVE
mouth, intestine
REPRODUCTIVE:
uterus, ovary.
