

7-8 YEARS | WEEK 44

Math - Graphs and Statistics

1. Graphs and Statistics - Tally and graph

2. Graphs and Statistics - Bar graph

3. Graphs and Statistics - Reading a graph

4. Graphs and Statistics - Pictogram

5. Graphs and Statistics - Line graph

6. Graphs - Finding coordinates

7. Graphs - Plot the coordinates

8. Graphs - Draw by coordinates

9. Graphs - Coordinates bingo

10. Graphs - Battleship game

11. Coordinating the coordinates

12. Coordinating the coordinates

13. Coordinating the coordinates

14. Coordinating the coordinates

15. Coordinating the coordinates

16. Graphs and Statistics - Pixel art

17. Graphs and Statistics - Pixel art

18. Graphs and Statistics - Pixel art

19. Graphs and Statistics - Pixel art

20. Graphs and Statistics - Crossword

M: Data and Statistics - Tally and graph

Spin, Tally and Graph it.

Place a paperclip at the centre of the board, and hold it with a pencil. Spin the paper clip ten times, and record the number of times the paper clip lands on your favourite Indian cricketer. Use tally marks to organize and record your data.

Players	Tally Marks	Number
 Sachin		
 Virat		
 Dhoni		
 Ashwin		

Colour the bar chart

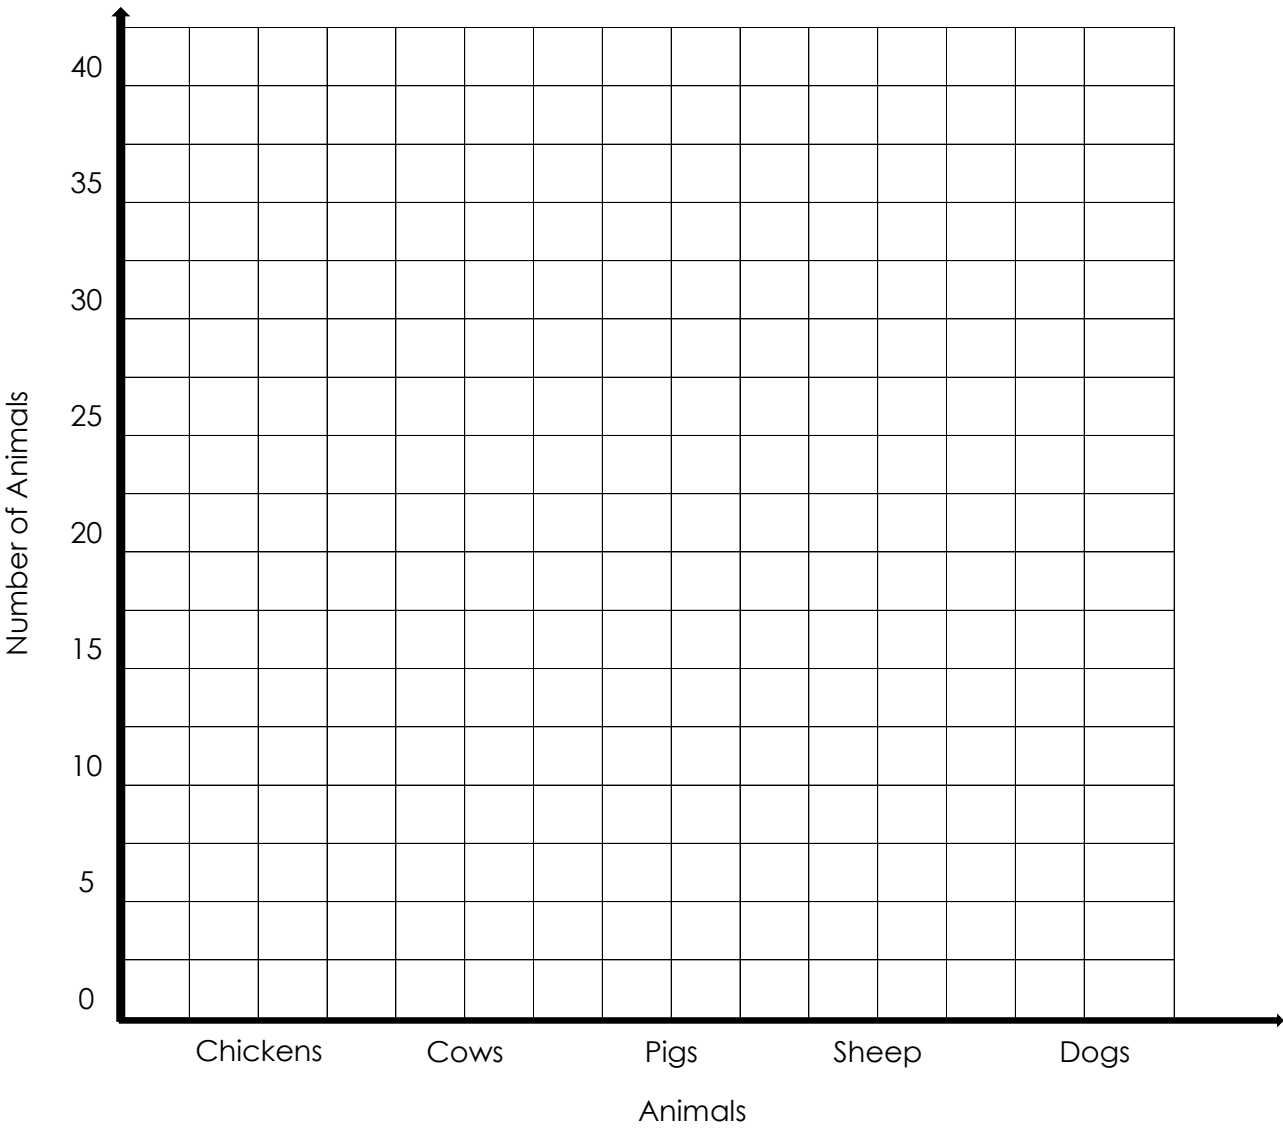

M: Data and Statistics - Bar graph

Farmer Farm! The table below shows the type and number of animals on farmer farm. Use the table data to complete the bar graph to mark the type and number of animals on farmer farm with different colours. Also, answer the questions.

Chickens	Cows	Pigs	Sheep	Dogs
30	10	15	20	5

- 1) Which animal do you see the most?

- 2) Which animal is fewer in number?

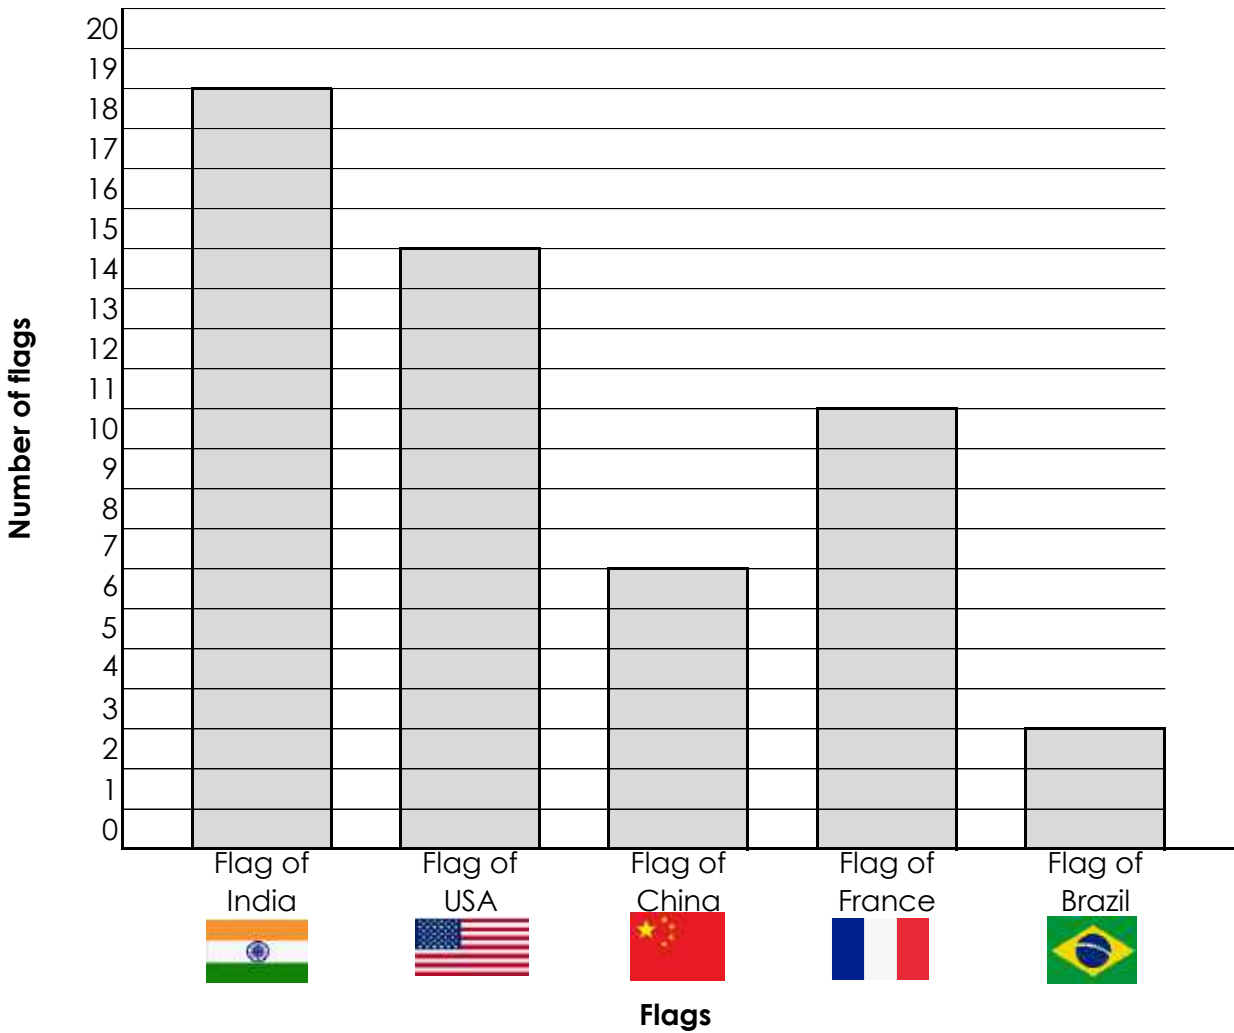

- 3) How many sheep are more than cows?

Answer Key: 1) Chickens, 2) Dogs, 3) Ten

M: Data and Statistics - Reading a bar graph

Flag Collection!! Rahul has a hobby of collecting flags from different countries. The bar graph displays the number of flags collected by him. Use the bar graph to answer the questions.

1) How many flags of India does Rahul have in his collection?

2) Name the country of the flag, for which Rahul has 7 in number?

3) Which flag does Rahul have maximum in number?

4) How many flags does Rahul have altogether?

5) Write the names of the flags in the order that Rahul has them – from the fewest to the greatest number?

Answer Key: 1) 18, 2) China, 3) India, 4) 35, 5) Flag of Brazil - Flag of China - Flag of France - Flag of USA - Flag of India.
