

# 8-9 YEARS | WEEK 30

## Science - Physics Concepts

---

1. Float or Sink

---

2. Soluble or insoluble

---

3. Energy sources - Classify and write

---

4. Circuit - Draw it!

---

5. Exploration - States of matter

---

6. States of matter - Sort objects

---

7. States of matter - Crossword

---

8. States of matter - Scavenger hunt

---

9. Matter - Properties of matter

---

10. Matter - Sorting states of matter

---

11. Matter - Identify the states of matter

---

12. Matter - Change of state

---

13. Matter - Molecules

---

14. Pick and mark - States of matter

---

15. Pick and mark - States of matter

---

16. Cut and paste - States of matter

---

17. Forms of water - True or false

---

18. Match it! - States of matter

---

19. Spot things - Changes state

---

20. Forms of matter - Word search

# FLOAT OR SINK

See the object with water in bowl or glass. Observe does it float on surface or sink at the bottom.

FLOAT

SINK

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

--	--

# SOLUBLE or INSOLUBLE

Mix the given object in water and give it a good stir. Does it get mixed well to the point that you can't find the object? Or can you still see it after mixing?

SOLUBLE

INSOLUBLE

SALT

SUGAR

PEPPER

OIL

MILK

SAND

CHALK

ICE CUBES

## Classify and write

Classify the following energy resources into renewable and non-renewable resources.

Source of energy	Renewable/ Non-renewable
	_____
	_____
	_____
	_____
	_____
