10.Zoology - Types of reproduction

11.Fertilization

12.Crossword

13.Choose and write

14.Word search

15.Choose and write

16.Sowing Seeds

17.Maple Seed – Helicopter

18.Seed to Tree

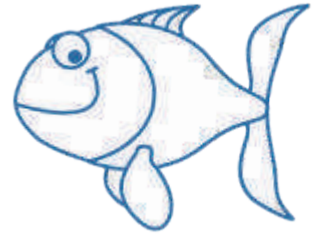

19.Label

20.Botany - Plant life cycle

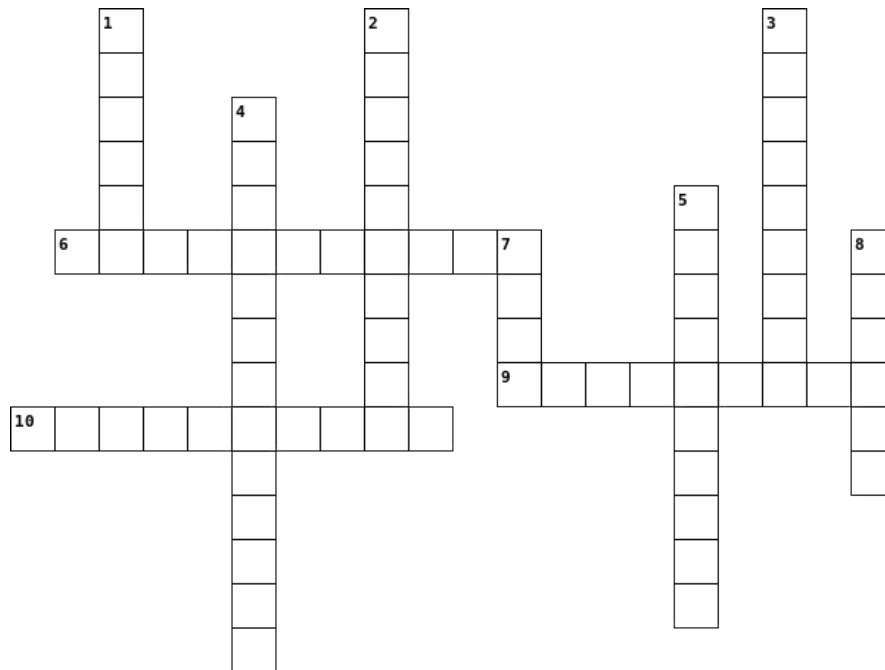

Can you find them?

Did you know? Fish can be found almost anywhere there are bodies of water. They can live high up in mountain streams all the way down to some of the deepest parts of the ocean.

About half of the species of fish live in the ocean, while the other half live in freshwater environments, like lakes, rivers, and streams.

Now that you know something about fishes, can you solve this crossword?

Across
